Re: BellSouth v. ClickQuick

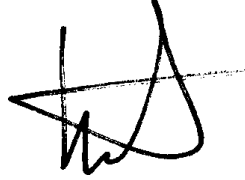

Dear Ms. Liebman:

I am writing in response to your letter of April 30 requesting "an indication from the building owners that you are their authorized agent to request and negotiate a relocation of the demarcation point." You have received by now a copy of the agreements executed by the building owners for the provision of high speed internet service at the properties and the assignment of those agreements to ClickQuick II, L.L.C. ("ClickQuick"). As those agreements state, ClickQuick has been appointed as the agent for the owners for the disposition of "all or part of any existing cable or related equipment" at the properties under state and federal law. Thus ClickQuick is the duly authorized agent for all matters concerning the location of the demarcation point of telephone equipment at the properties under state or federal law. As you know, I am the attorney for ClickQuick and represent it in all matters concerning the facilities in dispute at the properties, including the exercise of its agency powers.

You now have more than sufficient "indication" of ClickQuick's authority to request and negotiate a relocation of the demarcation point at the properties. Would you therefore provide the previously requested information concerning the proposed costs for ClickQuick to use the facilities in dispute.

Your prompt response would be appreciated. If you have any questions, please feel free to call.

Sincerely,

A handwritten signature in black ink, appearing to be 'W. James Mac Naughton', with a stylized, cursive script.
